

EPA-R10-HRSC-2021
FY 2021 REGION 10 HEALTHY, RESILIENT AND SUSTAINABLE COMMUNITIES
GRANT PROGRAM
 Environmental Protection Agency

GENERAL INFORMATION

Document Type:	Grants Notice
Funding Opportunity Number:	EPA-R10-HRSC-2021
Funding Opportunity Title:	FY 2021 REGION 10 HEALTHY, RESILIENT AND SUSTAINABLE COMMUNITIES GRANT PROGRAM
Opportunity Category:	Discretionary
Opportunity Category Explanation:	
Funding Instrument Type:	Cooperative Agreement Grant
Category of Funding Activity:	Environment
Category Explanation:	
Expected Number of Awards:	4
CFDA Number(s):	66.717 -- Source Reduction Assistance
Cost Sharing or Matching Requirement:	Yes

Version:	Synopsis 1
Posted Date:	Feb 01, 2021
Last Updated Date:	Feb 01, 2021
Original Closing Date for Applications:	Apr 30, 2021 Please refer to the announcement, including Section IV, for additional information on submission methods and due dates.
Current Closing Date for Applications:	Apr 30, 2021 Please refer to the announcement, including Section IV, for additional information on submission methods and due dates.
Archive Date:	May 30, 2021
Estimated Total Program Funding:	\$120,000
Award Ceiling:	\$60,000
Award Floor:	\$30,000

ELIGIBILITY

Eligible Applicants:	Others (see text field entitled "Additional Information on Eligibility" for clarification)
Additional Information on Eligibility:	Please see Section III of the announcement for eligibility information.

ADDITIONAL INFORMATION

Agency Name: Environmental Protection Agency

Description:

The U.S. Environmental Protection Agency, Region 10 (EPA), is issuing a Request for Applications (RFA) from eligible entities to improve community health, resilience, and/or sustainability through pollution prevention and/or sustainable materials management implementation. Pollution prevention (P2) is any practice that reduces the amount of any hazardous substance, pollutant, or contaminant entering any waste stream or otherwise released into the environment (including fugitive emissions); prior to recycling, treatment or disposal. Pollution prevention reduces the hazards to public health and the environment associated with the release of such substances, pollutants or contaminants. Sustainable materials management (SMM) is a systemic approach to using and reusing materials more productively over their entire life cycles. It represents a change in how our society thinks about the use of natural resources and environmental protection. By looking at a product's entire life cycle, we can find new opportunities to reduce environmental impacts, conserve resources, and reduce costs. Eligible entities include Region 10 states, local governments, city or township governments, independent school district governments, state-controlled institutions of higher education, non-profit organizations (other than institutions of higher education), nonprofit private institutions of higher education, community-based grassroots organizations, and federally recognized tribes and intertribal consortia. Eligible projects must take place within EPA Region 10, which includes Alaska, Idaho, Oregon, and Washington.
