

**CDC-RFA-EH21-2101**

**Building Resilience Against Climate Effects: Implementing and Evaluating
Adaptation Strategies that Protect and Promote Human Health**
Department of Health and Human Services
Centers for Disease Control - NCEH

GENERAL INFORMATION

Document Type:	Grants Notice
Funding Opportunity Number:	CDC-RFA-EH21-2101
Funding Opportunity Title:	Building Resilience Against Climate Effects: Implementing and Evaluating Adaptation Strategies that Protect and Promote Human Health
Opportunity Category:	Discretionary
Opportunity Category Explanation:	
Funding Instrument Type:	Cooperative Agreement
Category of Funding Activity:	Health
Category Explanation:	
Expected Number of Awards:	15
CFDA Number(s):	93.070 -- Environmental Public Health and Emergency Response
Cost Sharing or Matching Requirement:	No

Version:	Synopsis 1
Posted Date:	Apr 19, 2021
Last Updated Date:	Apr 19, 2021
Original Closing Date for Applications:	Jun 18, 2021 Electronically submitted applications must be submitted no later than 11:59 p.m., ET, on the listed application due date.
Current Closing Date for Applications:	Jun 18, 2021 Electronically submitted applications must be submitted no later than 11:59 p.m., ET, on the listed application due date.
Archive Date:	
Estimated Total Program Funding:	\$20,000,000
Award Ceiling:	\$400,000
Award Floor:	\$300,000

ELIGIBILITY

Eligible Applicants:

Public and State controlled institutions of higher education
 Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education
 County governments
 Others (see text field entitled "Additional Information on Eligibility" for clarification)
 State governments
 City or township governments
 Public housing authorities/Indian housing authorities
 Native American tribal governments (Federally recognized)
 Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education
 Private institutions of higher education
 Native American tribal organizations (other than Federally recognized tribal governments)
 Independent school districts
 Special district governments

Additional Information on Eligibility: Applicants are required to submit all of the following items to meet responsiveness requirements of this NOFO: Signed letter from the applicant organization's director that states their commitment for this program throughout the organization or agency. Name the file Responsiveness-Director and upload it in Grants.gov. Signed letters of commitment from partners who will be directly implementing adaptation actions (Strategy C: Compile Evidence and Best Practices to Develop Adaptation Plans). The letters should include information on the activities that the partners will be contributing to achieve the goals of this NOFO. Combine the letters into one file, name the file Responsiveness-Partnerships and upload it in Grants.gov. Signed letter from the principal investigator documenting implementation of the six areas of the Building Resilience Against Climate Effects (BRACE) framework: Activities to anticipate climate impacts and assess vulnerabilities; Projected disease burden from climate change; Assessment of public health interventions; Existing climate and health adaptation plan; and Evaluation of climate and health activities. Name the file Responsiveness-BRACE and upload it in Grants.gov. An Evaluation Plan that has been updated within the last 3 years. Name the file Responsiveness-EvalPlan A signed letter from the applicant that documents the jurisdiction's population (based on US Census data - 2018 estimates or other appropriate document if the Census data is not available). Name the file Responsiveness-Population and upload it in Grants.gov. Applications that include request for funding at a higher award amount for the Core Component, based upon population listed in the table in Funding Strategy section will be considered non-responsive and will receive no further review. If the application is non-responsive to any of the requirements listed in this section, it will not be entered into the review process. The applicant will be notified that the application did not meet submission requirements and will not advance for further review.

ADDITIONAL INFORMATION

Agency Name: Centers for Disease Control - NCEH

Description:

Climate change intensifies existing climate-sensitive health threats and creates new challenges by exposing more people in more places to hazardous weather and climate conditions (National Climate Assessment). Increasing temperatures, frequency and intensity of heat waves, heavy precipitation and flooding affects health in a number of ways. Each region of the United States experiences climate change and its impacts on health differently, due to the regions' location-specific climate exposures. The changing climate also interacts with demographic and social determinants of health to influence the extent of consequences; that is, not everyone is affected equally. Examples of populations at high risk of exposure to adverse climate related health threats include communities of color, older adults, groups that have been economically and socially marginalized and children (NCA).

This Notice of Funding Opportunity (NOFO) describes a systematic approach for health agencies to identify their climate-related challenges and subsequent opportunities to facilitate social system reorganization, changes, and learning, e.g. implementing and evaluation adaptation actions (Cutter, 2008). In implementing and evaluating adaptation actions, this NOFO intends to develop health department and community resilience and generate evidence for use in larger-scale and more frequent adaptation for health. adaptation actions designed to protect health from climate-related
