The term "Tribal organization" has the meaning given the term in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 5304): "Tribal organization" means the recognized governing body of any Indian Tribe; any legally established organization of Indians which is controlled, sanctioned, or chartered by such governing body or which is democratically elected by the adult members of the Indian community to be served by such organization and which includes the maximum participation of Indians in all phases of its activities: Provided that, in any case where a contract is let or grant made to an organization to perform services benefiting more than one Indian Tribe, the approval of each such Indian Tribe shall be a prerequisite to the letting or making of such contract or grant. ADDITIONAL INFORMATION

Agency Name: Indian Health Service

Description:

The purpose of this Indian Health Service (IHS) grant is to provide access to treatment for American Indian / Alaska Native (AI/AN) victims of domestic and sexual violence by supporting the development of and/or expansion of Forensic Healthcare (FHC) services that are culturally appropriate and trauma informed. The intent is to impact FHC services in each IHS Area (Tribes, Tribal organizations and Urban Indian organizations). This also includes promoting treatment, intervention, and prevention efforts for the social, spiritual and emotional well-being of victims including child maltreatment. To address domestic and sexual violence, including victims of sexual exploitation/human trafficking, applicants are encouraged to use a Multidisciplinary Team (MDT) and Sexual Assault Response Team (SART) approaches. Using these types of team approaches is crucial – especially among local, state, and Federal agencies that includes healthcare providers, law enforcement, child protective services, social service, legal service, coalitions, behavioral health, and victim advocacy. The MDT/SART are community-based approaches in responding to sexual assault, intimate partner violence, and sexual abuse victims. Without the advantage of a team approach method, a program is more likely to fail. Improving collaboration through agreements can improve the response time for sexual assault victims.

This is only a forecast. The synopsis and application package are not yet posted, and we have not yet finalized the application due date. This opportunity will be updated when it is published in the Federal Register.
