**Description:** The overall purpose of the Older Adult Home Modification Program (OAHMP) is to assist experienced nonprofit organizations, state and local governments, and public housing authorities in undertaking comprehensive programs that make safety and functional home modification repairs and renovations to meet the needs of low-income elderly adult homeowners. The goal of the home modification program is to enable low-income elderly adult persons to remain in their homes through low-cost, low barrier, high impact home modifications to reduce older adults' risk of falling, improve general safety, increase accessibility, and to improve their functional abilities in their home. This will enable older adults to remain in their homes, that is, to "age in place," rather than move to nursing homes or other assisted care facilities.
