ADDITIONAL INFORMATION

Agency Name: Indian Health Service

Description:

The Community Health Aide Program (CHAP) Tribal Assessment & Planning (TAP) program purpose is to support the assessment and planning of Tribes and Tribal Organizations (T/TO) in determining the feasibility of implementing CHAP in their respective communities. The program is designed to support the regional flexibility required for T/TO to design a program unique to the needs of their individual communities across the country through the identification of feasibility factors.

The focus of the program is to:

Part 1: Assess whether the T/TO can integrate CHAP into the Tribal health system including the health care workforce.

Part 2: Identify systemic barriers that prohibit the complete integration of CHAP into an existing health care system. The barriers should be related to:

- Clinical infrastructure.
- Workforce barriers.
- Certification of providers.
- Training of providers.
- Inclusion of culture in the services provided by a CHAP provider.

1. Part 3: Plan partnerships across the T/TO geographic region to address the barriers including reimbursement, training, education, clinical infrastructure, implementation cost, and determination of system integration.
