Eligibility

Eligible Applicants:	Others (see text field entitled "Additional Information on Eligibility" for clarification)
Additional Information on Eligibility:	Eligible applicants shall be domestic public or private, non-profit or for-profit entities, including faith-based, community-based, tribes and tribal organizations. The applicant organization may be located in a rural or urban area, but must have demonstrated experience serving, or the capacity to serve, rural underserved populations. Applicants should list the rural areas (counties) that will be served. Proposed counties should be fully rural, but if counties are partially rural counties, please include the rural census tract(s) in the Project

Abstract. The applicant organization should also describe their experience and/or capacity serving rural populations in the Project Abstract section of the application. It is important that applicants list the rural counties (or rural census tract(s) if the county is partially rural) that will be served through their proposed project, as this will be one of the factors that will determine the applicant organization's eligibility to apply for this funding. To ascertain rural service areas, please refer to <https://data.hrsa.gov/tools/rural-health>. This webpage allows you to search by county or street address and determine rural eligibility

Additional Information

Agency Name: Health Resources and Services Administration

Description: The Rural Health Care Services Outreach Program (Outreach Program) Program is a community-based grant program aimed towards promoting rural health care services by enhancing health care delivery to rural underserved populations in the local community or region. Through consortia of local health care and social service providers, communities can develop innovative approaches to challenges related to the specific health needs in rural areas that expand clinical and service capacity in rural communities. The overarching goals for the Outreach Program are to: (1) expand the delivery of health care services to include new and enhanced services exclusively in rural communities; (2) deliver health care services through a strong consortium, in which every consortium member organization is actively involved and engaged in the planning and delivery of services; (3) utilize community engagement and evidence-based or innovative, evidence informed model(s) in the delivery of health care services; and (4) improve population health, and demonstrate health outcomes and

sustainability. In addition to the program’s regular outreach funding track, the program also includes a special funding track that supports funding to projects seeking to address the underlying factors driving growing rural health disparities related to the five leading causes of avoidable death in the U.S. (heart disease, cancer, unintentional injury/substance use, chronic lower respiratory disease).
