Section 1:

Program Description

In This Section:

- ▶ **Program Description**
- ▶ **Opportunity Snapshot**
- ▶ **Federal Award Information**

Program Description

In December 2007, Congress first appropriated funds to the Internal Revenue Service (IRS) to establish and administer a matching grant program for community volunteer income tax assistance. In July 2019, the Taxpayer First Act, P.L. 116-25, made the VITA matching grant program permanent through section 7526A of the Internal Revenue Code. While the law directs the IRS to provide grant funds to qualified organizations for the development, expansion, or continuation of VITA programs, it does not provide dedicated funds for the grant program annually. Congress funds the grant program each year as part of the IRS appropriation.

This funding allows the Stakeholder Partnerships, Education and Communication (SPEC) organization within the IRS to offer grants to partner organizations providing free federal tax return preparation to targeted groups of taxpayers. They include low- to moderate-income taxpayers, persons with disabilities, persons with limited English proficiency, Native Americans, individuals living in rural areas, military families, and the elderly. At least 90 percent of individuals receiving tax return preparation assistance must be low- to moderate-income taxpayers. Low- to moderate-income taxpayers are taxpayers whose income does not exceed the maximum income threshold for the Earned Income Tax Credit (EITC) for the tax year. For tax year 2025, the maximum income threshold is \$68,675. Refer to IRS.gov for additional [EITC limitations](#). The IRS prioritizes and awards VITA grant funds to organizations that operate a VITA program and demonstrate assistance to targeted segments of taxpayers, mentioned earlier, including taxpayer outreach and educational services relating to EITC eligibility and other tax benefits.

Find additional information concerning this notice of funding opportunity in **IRS Publication 4671, VITA Grant Program Overview and Application Instructions**, available on IRS.gov.

To ensure consistent treatment of taxpayers and accurate return preparation, the IRS established certain requirements for participation. Look for additional information in **IRS Publication 5683, VITA/TCE Handbook for Partners and Site Coordinators**. Find this publication and any forms at IRS.gov.

VITA Grant recipients must operate within the established guidelines and requirements of the VITA Program and section 7526A of the Internal Revenue Code.

Federal Award Information

IRS anticipates awarding \$30 million in grants through this opportunity to non-federal entities. The amount of award depends on the applicant's reach and returns expected to be prepared by the program. The expected amounts of individual Federal awards range from \$5,000 to \$2,000,000. The average award from the previous year was \$93,000.

The **period of performance** for this grant is October 1, 2025, through September 30, 2026. Expect awards to be distributed to organizations providing services within the United States and Puerto Rico assuming *eligible* organizations submit applications by the due date and meet the established criteria. The IRS issues awards to both new and continuing VITA grant applicants and multi-year recipients.

All recipients will receive a multi-year award renewable up to three years. All recipients must apply annually to renew the grant. Multi-year recipients must submit an abbreviated application for the second and third year. The application is not subject to the technical review and ranking. However, recipients must meet satisfactory performance levels and comply with program terms and conditions. IRS distributes awards based on the availability of appropriated funds.

Section 2:

- ▶ **Eligible Applicants**
- ▶ **Cost Sharing or Matching**
- ▶ **Other**

Eligible Applicants

To be eligible to apply for this grant your organization must be:

- ▶ A private or public non-profit organization that qualified for and received an IRS determination letter confirming the organization's tax exemption under section 501 of the Internal Revenue Code, including but not limited to credit unions and faith based and community organizations,
- ▶ A public, nonprofit, or proprietary (privately owned profit-making) college, university, vocational school, or other postsecondary educational institution located in the United States and Puerto Rico that has not been disqualified from participating in a student aid program administered by the U.S. Department of Education,

Note: Organizations that have applied for recognition as tax-exempt but have not received their IRS determination letter confirming the organization as exempt at the time of application are not eligible to apply for this grant. Section 501(c)(4) organizations

may apply; however, if awarded a grant, federal law will prohibit your organization from lobbying. Church organizations must submit a determination letter to apply for this grant. Organizations included as a subordinate in a group exemption ruling must include the official subordinate listing approved by the central organization.

Cost Sharing or Matching

1. This grant requires 100% cost sharing or matching of all federal funds awarded. For every federal dollar requested or awarded, the applicant must commit an equal amount. The Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, 2 CFR 200, states any shared costs or matching funds and all contributions, including cash and third-party in-kind contributions, shall be accepted as part of the non-Federal entity's cost sharing or matching when such contributions meet all of the following criteria:
 - ▶ Verifiable from the non-Federal entity's records;
 - ▶ Not included as contributions for any other Federal award;
 - ▶ Necessary and reasonable for accomplishment of project or program objectives;
 - ▶ Allowable under 2 CFR Part 200 Subpart E – Cost Principles;
 - ▶ Not paid by the Federal Government under another Federal award, except where the Federal statute authorizing a program specifically provides that Federal funds made available for such program can be applied to matching or cost sharing requirements of other Federal programs;

- ▶ Provided for in the approved budget when required by the Federal awarding agency; and
- ▶ Conform to other provisions of 2 CFR Part 200, as applicable.

Other Criteria

- ▶ Compliant with federal tax obligations – The organization applying must be tax compliant at time of application, prior to award, and, if awarded, remain compliant during the Period of Performance. This includes filing all required federal information and tax returns and payment of all federal tax, penalties, and interest.
- ▶ Compliant with other federal obligations – Organizations with federal nontax debt may not receive a grant award depending on the circumstances surrounding the debt. If the IRS identifies a nontax debt or one is reported to the IRS by the System for Award Management (SAM), the applicant must provide additional information when requested.
- ▶ Eligible to receive federal financial assistance – The organization must not be debarred or suspended from receiving federal financial assistance and must provide certification regarding debarment, suspension, and other responsibility matters as covered in the List of Assurances and Certifications section of the application.
- ▶ Compliant with audit requirements, when applicable – Audit requirements in 2 CFR 200.501 apply to grant award recipients. A non-federal entity that expends \$750,000 or more in Federal awards during its fiscal year must have a single audit conducted in accordance with 2 CFR 200.514. Organizations with other than unmodified opinion must take corrective action.
- ▶ Submit required reports timely – If your organization received a VITA or Tax Counseling for the Elderly (TCE) grant in prior years, timely submission of required reports is a pre-requisite for consideration of future grant opportunities.

Intergovernmental Review

Executive Order 12372, Intergovernmental Review of Federal Programs, was issued with the desire to foster the intergovernmental partnership and strengthen federalism by relying on state and local processes for the coordination and review of proposed federal financial assistance and direct federal development. The Order allows each state to designate an entity to perform this function. Visit www.ecfr.gov/current/title-24/subtitle-B/chapter-V/subchapter-C/part-570/subpart-K/section-570.612 and click on the link for the “SPOC List” to determine if your state is participating. States that are not listed have chosen not to participate in the intergovernmental review process. If you are located within a state that has chosen not to participate, you may send application materials directly to a federal awarding agency.

Funding Restrictions

In general, expenses must be allowable, allocable, and reasonable and vital to the operation of the VITA program. IRS Publication 4671 provides additional information by cost category along with an exhibit of the most common allowable and unallowable program expenses. For example:

- a.** Federal funds are not allowed to pay for the activities of screening or return preparation. Non-federal funds may be used to pay these costs and can be used as match.
- b.** Purchases of computers, printers, or other technology with a cost of over \$1,000 require prior approval.
- c.** Cost of food and beverages provided for volunteers at VITA sites during filing season is allowable if the purchase meets all OMB established criteria, is a direct cost, and does not exceed \$500. Cost of food and beverages in conjunction with an event or social activity is not allowable. This food allowance cannot be used for Volunteer Appreciation events.
- d.** Construction costs are not allowable.
- e.** Costs incurred outside the period of performance are not allowable.
- f.** Program Income is not allowable.

Other Submission Requirements

Applications will only be accepted if submitted electronically through Grants.gov. Find instructions for applying for a grant on Grants.gov at: www.grants.gov/applicants. Use the Grants.gov Workspace to complete the application. Follow the instructions provided at the above URL address to prepare, submit and track applications.

Applications may be downloaded prior to finishing the Grants.gov registration process; however, they may not be submitted until registration is complete. To download a copy of the submitted application for offline record-keeping and to verify the contents of the submission zip file. We recommend downloading the submitted application via the Details tab of the workspace and verifying the contents of each file in the zip. Grants.gov provides instructions for registering an organization at: www.grants.gov/applicants. Depending on whether your organization already has a UEI or SAM registration, registration could take up to **4 weeks** to complete all steps. **START EARLY.**

Organizations applying must have a UEI, an active SAM registration that will not expire prior to submission. Organizations must ensure they register the individual who is able to make legally binding commitments for the organization as the Authorized Organization Representative (AOR). The E-Business Point of Contact (E-Biz POC) approves the AOR. When your organization registers with SAM, the assignment of the E-Biz POC is required. The user must create a special password called the “MPIN” (Marketing Partner Identification Number). This password gives the authority to designated staff members to submit applications electronically through Grants.gov. Organizations should review and confirm the E-Biz POC information in SAM is accurate to prevent delay of Grants.gov application submission.

To be eligible, organizations must meet eligibility requirements and score 140 or higher on the technical evaluation.

The GPO makes recommendations and the Director, Stakeholder Partnerships, Education and Communication, makes the final selection.

Integrity and Performance System

Prior to making an award, the GPO will review and consider any information in the Federal Awardee Performance and Integrity Information System (FAPIS). At a minimum, the information in the system for a prior Federal award recipient must demonstrate a satisfactory record of executing programs or activities under Federal grants, cooperative agreements, or procurement awards, as well as integrity and business ethics.

An applicant may review information in FAPIS and respond to any comments that a federal awarding agency previously entered. The GPO will consider any comments by the applicant, in addition to the other information in FAPIS to determine the risk posed by applicants as described in 2 CFR 200.205.

Anticipated Announcement and Federal Award Dates – All awards (continuing multi-year and competitive awards) and non-awards are generally announced the first week of October.
