institutions of higher education

County governments

Native American tribal organizations (other than Federally recognized tribal

governments)

City or township governments

State governments

Public and State controlled institutions of higher education

Private institutions of higher education

Additional Information on Eligibility: Individuals and For-Profit Organizations are ineligible to apply for awards under this NOFO. This program NOFO does not support entities hiring interns or crews under the Public Lands Corps Act of 1993. The Public Lands Corps Act of 1993, 16 USC, Chapter 37, Subchapter II-Public Lands Corps, is the only legislative authority that allows BLM to "hire" interns under this authority. Therefore, eligible Youth Conservation Corps may only apply for projects developed under NOFO 15.243 – BLM Youth Conservation Opportunities on Public Lands. CESUs are partnerships with a purpose to promote, conduct, and provide research, studies, assessments, monitoring, technical assistance, and educational services. If a cooperative agreement is awarded to a CESU partner under a formally negotiated Master CESU agreement which is consistent with the CESU purpose, indirect costs are limited to a rate of nomore-than 17.5 percent of the indirect cost base recognized in the partner's Federal Agency-approved Negotiated Indirect Cost Rate Agreement (NICRA). Applicant"s should specify if their proposal furthers the purpose of the CESU program, and if so which CESU Network should be considered as host.

Additional Information

Agency Name: Bureau of Land Management

Description: Funded projects under this program will focus on high priority work such as

activities that promote forest and woodland health, sustainable forest management, fire resiliency, biomass utilization for bioenergy, habitat conservation needs, and insect, disease and fire recovery on public lands. These activities could include, but are not limited to: planting trees, precommercial and commercial thinning, salvage/sanitation forest treatments, control of competing vegetation, fuels reduction, riparian or upland restoration, project development and layout, planning analysis and document preparation needed in concert with or to carry out NEPA, Endangered Species Act or cultural clearances, data collection, and monitoring. Priority activities under this announcement include projects that

support Executive Order 14225 Immediate Expansion of American Timber

Production.
